My dear Dr Gray

Please accept a bound copy of my list of Bermuda plants posted here-with, in lieu of the unbound copy addressed you by my directions while I was abroad. I add a leaf of corrections for the latter which may be of some use. Hooker has made the important rectification that our Bermuda

Dr Asa Gray

Palmetto is Sabal Blackburn-
-iana, not S. Palmetto. The
Statice is a new sp. and soon
our common Adiantum is no
longer to be called A cuneatum
I understand that the Challen-
-ger Botany will soon appear
and doubtless go fully into these
particulars. My humble aim
was to assist Botanists by
local information, and to
assist the education of the
Bermudians. For I don't think
I exaggerate in saying that
when I took the subject up
there was no native Bermu-
-dian who knew the names
of twenty native plants.
It is to be regretted that they
did not send me the sheets
for correction
I trust you enjoyed your
very hasty visit to Montreal
Lady Dorothy and I proceeded
to Winnipeg and returned
by way of S. Pauls, and
